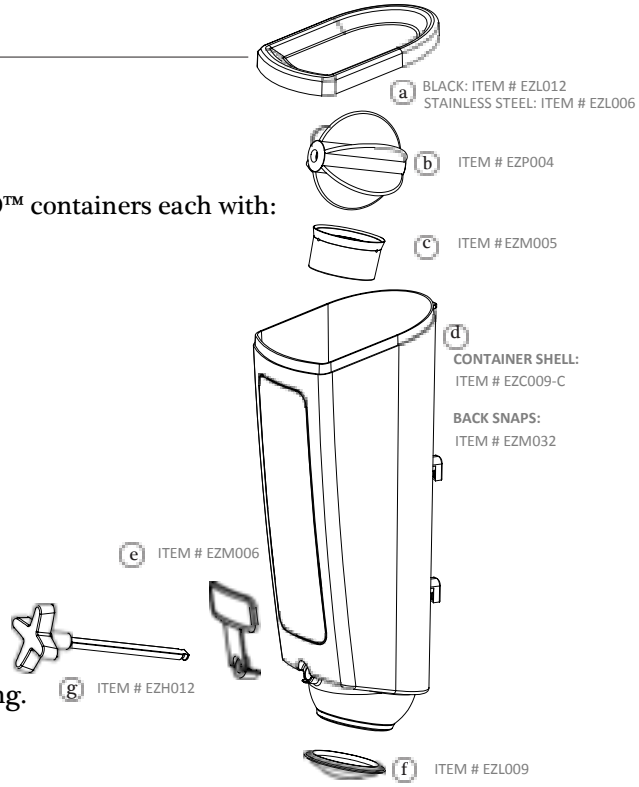
EZ-PRO™ H-SERIES TABLE-TOP DISPENSERS

SETTING UP YOUR PRODUCT



1. Carefully remove all parts from packaging and poly bags.
   - Depending on your model, you will have 1, 2 or 3 EZ-PRO™ containers each with:

   a. Lid
   b. PRO-6W Silicon Portion Wheel
   c. Regular Nozzle
   d. Container
   e. Label Holder
   f. PRO Fresh Lid
   g. Handle
   - 1 EZ-PRO™ H-Series Table-Top Stand
2. Make sure you have all parts listed above before discarding packaging.
3. Place the stand on a flat surface facing you.
4. Fill an EZ-PRO™ container with desired product and seal with the lid.
5. On the back of each container are 2 connectors that snap snugly into the allotted notches on the stand.
6. Easily install a container by inserting the bottom connector first, then pushing the top connector through the notch. Make sure both notches snap into place. When fully assembled, the back of the container will look similar to **Figure A**.

   Tip: insert bottom rectangle into frame first, and snap top rectangle into frame for easier and more secure assembly.
7. If desired, place an identifying label on the label holder.
8. Repeat steps 5 thru 7 for the remaining containers.
9. Dispense as you please!
10. When unit is not in use, fasten the PRO Fresh lid onto the nozzle.

CARING FOR YOUR CONTAINER

CLEANING INSTRUCTIONS:

1. To maintain the quality of your EZ-PRO™ container, wash all parts daily in warm soapy water. Use a non-abrasive sponge.
2. DO NOT put any part of the unit through any dishwasher, dryer machines, or submerge in water.
3. When disassembling the container, handle all parts gently. Please refrain from using too much force.
4. Reassemble the unit only after all parts are completely dry.

HOW TO DISASSEMBLE:

1. Remove the container from the stand by holding it securely and lifting directly upward, clearing the hooks from the notches on the stand.
2. Remove lid from top of container. Make sure there is no remaining product inside that can spill over.
3. Gently pull the handle from the front of the container. Set aside both handle and label holder.
4. Reach into container and remove portion wheel by gently pulling upwards or turning container upside down. Do the same to remove the nozzle.

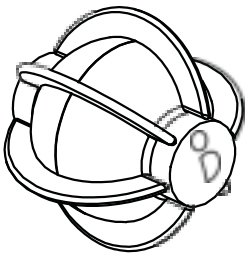
HOW TO ASSEMBLE:

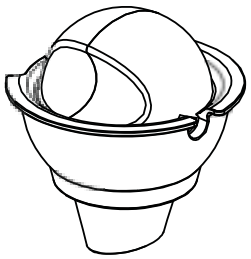
1. Place nozzle into container, followed by the portion wheel.
2. Adjust the portion wheel inside the container, so that its holes align with the container's holes (both front and back).
3. Position the label holder so that it matches the hole on the front of the container.
4. Insert handle through the label holder and front hole. Push the shaft through the portion wheel, all the way to the back of the container.
5. Fill container with desired dry product and place lid securely on the container.
6. Follow steps 6 and 7 on Page 1.
7. Continue using dispenser unit as usual.

Need a different-sized portion wheel? We have 6 more options for you to choose from!

Other portion wheels available:

- Pro6-SM – 1 tablespoon
- EZP007 – 1 teaspoon
- EZP008 – 2 teaspoons
- EZP010 – 3 teaspoons
- EZP011 – 4.5 teaspoons





The Rosseto interchangeable portion wheels deliver just the right amount of product every time. Test each wheel with your dry foods to determine which works best for you!
