# BECOMING A TRULY GLOBAL BRAND

Getting bigger means never forgetting where you came from and who you are.

Rosseto is eagerly awaiting 2019 as we have big efforts in store for our customers. We have exciting growth taking place now more than ever. As we continue to expand, our goal remains the same- creating quality, design-focused products that our customers have come to expect.

As you dive into this current catalog, you will see that we have added five entirely new lines to the Rosseto family of products - Bronze, Ionic, Lucid (pictured left), Mosaic, and Natura Nite.

With the success of our Natura bamboo line, we've expanded into a darker offering-- Natura Nite, for an elegant appeal. The Bronze collection offers a rustic, industrial feel. Mosaic and lonic offer a strong, sleek, black set and our Lucid collection adds a touch of light sophistication. Enjoy these economical new lines while still achieving the quality, functionality, and design that we at Rosseto pride ourselves on.

Meet Bronze, Ionic, Lucid,
Mosaic, and Natura Nite.
Each product from every
collection integrates with all
other Rosseto products.

In addition to our new product lines, we are constantly striving to expand our extensive line of dispensers. At Rosseto, we pride ourselves on not only having the finest quality products in the industry, but also offering the widest selection available for dry food dispensing and bulk merchandising. Bring us your snacks, cereal, or candy! We have a serving solution perfect for your next project- guaranteed.

Here's to all the beautiful things we will create together this year! All the best,

# **OUR COMPANY**

Rosseto has been helping industry leaders, both large and small, find solutions for their businesses.

It has always been our goal to provide products that are easy to assemble, easy to maintain and provide modern design elements that will compliment any environment or theme. Our dedication to quality and design has allowed us to become a trusted brand to some of the biggest names in food service. Our products have been used in major events like the 2016 Golden Globes and Super Bowl 50 and praised by entities like John Q. Hammons, Marriott, Walgreens and Wolfgang Puck.

A commitment to providing a complete solution has created very strict controls over our materials. Rosseto is one of the only manufacturers in the industry that continues to use US Steel in all of our products. Founder Gil Gold states:

"We have been asked many times to use Chinese steel companies for our products because it is cheaper, but we refuse. When you see the difference in quality you simply can't go in that direction. It's not worth it to us. I see competitors who have just entered the market who are using this type of material. You can crush their products with your hands. It gives me chills."

Rosseto designs products with our customers in mind. From the time of purchase to maintenance and storage, we want to be with you every step of the way.

Find product features and highlights throughout the catalog using the following icons:

We are proud that all of our steel is made and manufactured in the US from the highest quality material available. All steel is 14-gauge, laser polished. We are so confident in the quality of our products, that we offer a lifetime guarantee on all welding.

### ☐ Portion Control Technology

All Rosseto® dispensers include patented portion-control technology that allows you to control food cost and save money. Select portion control wheels are available for individual dispensers that range in portion sizes from 1 teaspoon to 1 ounce.

### **Eco-Friendly**

### Easy to Clean

We wanted to provide serving solutions that not only look good in your business, but are easy to maintain. Every product has been designed to make cleaning as simple as possible using minimal parts. This helps you keep your customers safe and health inspections worry-free.

We have added the Rosseto line of buffet equipment to many of our hotels and are *very pleased* with the results. The products are truly an extension of our F&B strategy, are *extremely well* made, and we have had nothing but positive feedback from our hotel guests.

# MATERIALS MATTER

Quality is the primary goal in the construction of all Rosseto<sup>®</sup> products. To meet such high standards, only the best materials are used.

Rosseto® unique surfaces are available in glass, natural woods and durable acrylic and are designed to match perfectly with Rosseto® product lines for ideal bakery cases, riser systems, buffet warming and cooling stations and beverage dispensers. Available in many desirable colors and high-end materials, these modular pieces enhance your guest experience while also making your buffet system more versatile and modular with each use.

# SURFACES

### Bamboo

Not all bamboo is created equal. We use the highest quality bamboo available. We designed a custom three layer system that prevents warping and damage. Keep in mind that bamboo is a natural, live material and reacts to changes in temperature and humidity.

### **Natural Walnut**

Luxurious deep brown hues makes walnut the perfect finish for any high end buffet or food display. Relatively heavy, hard and resilient, it can stand up to your toughest guests and is naturally resistant to warping.

### Acrylic

Durable and easy to maintain, this material is perfect for high traffic use or in places where glass would be a safety concern (like poolside or lobbies). Choose from clear, black or white.

### Tempered Glass

All of our glass is toughened or tempered. This means that it is processed by controlled thermal treatments to increase strength and safety.

Choose from both clear and black finishes.

### **Clear Acrylic**

When companies use low grade acrylic or plastic to make their products, you can always tell by the foggy or frosted coating they will have. Our top grade acrylic is crystal clear and is as close to glass as you can get, without, you know... being glass.
